

### Informazioni tecniche:

|                             |                                    |
|-----------------------------|------------------------------------|
| Installazione:              | Incasso soffitto                   |
| Materiale Corpo:            | Tecnopolimero                      |
| Finitura:                   | Bianco da stampaggio               |
| Tipo di diffusore:          | PMMA                               |
| Inclinazione ottica:        | 11 X 37°                           |
| Tipo lampada:               | LED                                |
| Classe energetica:          | F                                  |
| Temperatura colore:         | 3000K                              |
| CRI:                        | 95                                 |
| LB Factor:                  | L80B20 - 50.000h                   |
| Step MacAdam:               | 3                                  |
| Rischio fotobiologico:      | RG1                                |
| Potenza assorbita Watt:     | 9,5                                |
| Lumen:                      | 820                                |
| Real Lumen:                 | 725                                |
| Alimentazione:              | ✓ inclusa da remoto                |
| LED:                        | 220-240V REMOTE<br>DRIVER INCLUDED |
| Interruttore magnetotermico | 26-26-42-42                        |
| B10 - C10 - B16 - C16       |                                    |
| Classe di isolamento:       | □ CL.II                            |
| Cavo Alimentazione:         | 0,20 metri PVC<br>2x0,25mm         |
| Grado di protezione:        | <b>IP 65</b>                       |
| Resistenza alla rottura:    | <b>IK 06 1J xx3</b>                |
| Marchi di Conformità:       | CE UK<br>CA                        |
